Designed as an efficient economy model for the small collision shop, the Kayco cross-draft spray booth disperses fresh air across the automobile and eliminates airborne paint, particles and hazardous fumes through the filters in the rear of the booth.

Also available in a reverse-flow design, the Kayco Cross-Draft Spray Booth can be modified to include 10 or 12 light options.

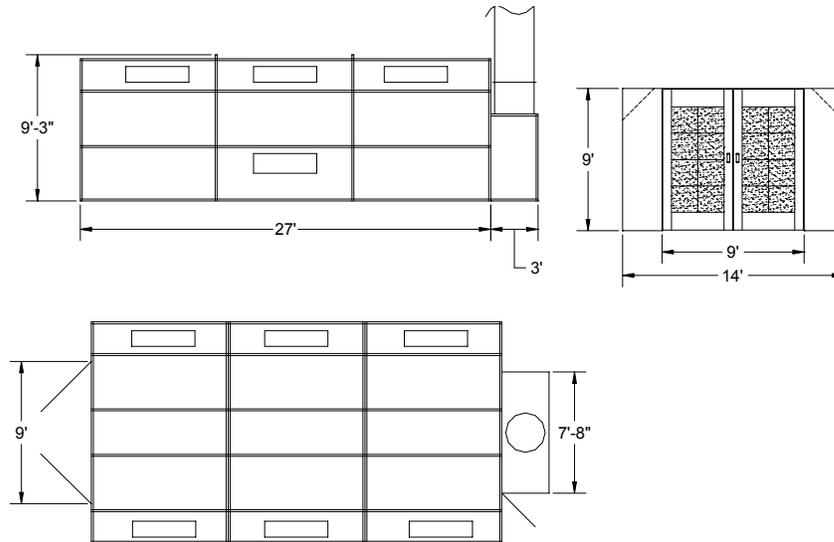

Kayco Spray Booths Inc. strives to be your preferred supplier of quality spray booth systems and accessories. Our product line offers a diverse array of spray booth configurations that provide you with a high quality solution at an affordable price.

No solution is the same for every business. The KAYCO line of products is designed to allow custom configuration to meet our customers demanding requirements.

Kayco is dedicated to superior customer service before, during and after the sale.
